CONNOR PYMM
Computer Science Student

Currently a student enrolled at the University of Maryland, College Park. Interested in Computer Science and fields relating to Programming and Software Development, including Cybersecurity, Robotics, Engineering, and Artificial Intelligence. Seasoned programmer with a desire to deepen my knowledge of software development. Extremely detail-oriented worker with the drive, analytical skills, and prior knowledge to learn new skills to contribute to both my personal growth and the success of the company.

Work History

2022-06 - 2022-08

Junior Developer

RBR Technologies, Odenton, MD
- Designed intuitive graphical user interfaces to improve user experience for a technology firm that specializes in webapp development for government customers.
- Utilized Angular frontend, Java backend, and PostgreSQL to develop webapps with databases.
- Effectively collaborated with a development team of 11 developers.
- Both assisted team members with their code and learned from senior co-workers to improve my own coding ability.

2023-05 - 2023-08

Software Development Intern

Norseman Defense Technologies, Elkridge, MD
- Researched and evaluated zero trust framework products and services from various vendors for security and performance.
- Utilized Microsoft Power Automate to automate the redirection of relevant government requests to vendors through OCR.
- Fine-tuned GPT-4 for various natural language processing tasks and explored its capabilities and applications.
